Amar Meshram

Nagpur, Maharashtra, 441201
+91 9284572177 meshramamar567@gmail.com LinkedIn GitHub Portfolio

Profile Summary

Full Stack MERN Developer with hands-on experience building and deploying responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, authentication systems, admin dashboards, and production-ready full-stack projects. Strengthening core problem-solving ability through Data Structures & Algorithms in Python. Familiar with AI-assisted development workflows, modern deployment platforms, and writing clean, maintainable code.

Technical Skills

Frontend: React.js, Redux Toolkit, Context API, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap
Backend: Node.js, Express.js, Python, REST APIs, Authentication (JWT, Clerk)
Database: MongoDB, MongoDB Atlas, SQL, PostgreSQL, Mongoose ODM
Programming Fundamentals: Data Structures & Algorithms (Python) – Arrays, Linked Lists, Stacks, Queues, Trees, Sorting & Searching, Recursion, Time & Space Complexity
DevOps and Cloud: Docker, GitHub Actions (CI/CD), Vercel, Netlify, Render
Tools and Platforms: Git, GitHub, Postman, VS Code
Soft Skills: Team Leadership, Problem Solving, Time Management, Communication

AI Automation Skills

AI Tools: ChatGPT/Codex, Claude AI, Gemini, GitHub Copilot, Cursor AI, Windsurf, Microsoft Copilot, Lovable AI
Automation Tools: Make (Integromat)
Core Skills: Prompt Engineering, AI-Assisted Development, Workflow Automation

- Leveraged AI-assisted tools for code generation, debugging, application scaffolding, and technical documentation.
- Used AI tools to support code reviews, refactoring, testing, and UI improvements during development.
- Created structured prompts to improve code quality, development efficiency, and problem-solving workflows.
- Designed workflow automations using Make for notifications, form processing, and data synchronization.
- Applied AI tools to streamline repetitive tasks, content drafting, summarization, and developer productivity.

Projects

- **Sentio AI** | React.js, Node.js, Express.js, MongoDB, Clerk, TailwindCSS, AI Tools, Vercel
  - Built and deployed a full-stack AI platform with a ChatGPT-style conversational interface for interactive AI-powered conversations.
  - Developed a responsive React.js frontend with modern UI components, conversation management, authentication, and a polished AI-focused user experience.
  - Implemented backend APIs using Node.js and Express.js with MongoDB for user and application data management.
  - Integrated Clerk authentication with protected routes and user account management for secure access.

- Designed the application architecture for scalable AI-assisted workflows and integrated modern development practices for production deployment.
- Deployed the application on Vercel with environment configuration and production-ready frontend/backend integration.
- https://sentio-ai-9b9q.vercel.app/

- **Shopping App** | React.js, Node.js, Express.js, MongoDB, Clerk, TailwindCSS, Vercel
  - Built and deployed a full-stack e-commerce web application with separate customer and admin interfaces for product browsing, cart management, secure authentication, and order handling.
  - Developed a responsive frontend using React.js and TailwindCSS with product listings, category-based navigation, and admin dashboard workflows.
  - Implemented RESTful APIs with Node.js and Express.js for products, categories, orders, coupons, users, and admin operations.
  - Integrated MongoDB for persistent data storage and added Clerk authentication with protected user and admin routes.
  - Managed production deployment on Vercel, including environment configuration, API routing, and CORS handling.
  - https://shoppingapp-sepia.vercel.app/

- **Hotel Booking** | React.js, Node.js, Express.js, MongoDB, Stripe, Clerk, TailwindCSS
  - Developed a full-stack hotel booking application enabling users to search, view, and book hotels by location, availability, and price.
  - Implemented secure authentication using Clerk with booking management and dynamic filtering features.
  - Built RESTful APIs with Express.js and managed scalable application data using MongoDB.
  - Integrated Stripe for secure online payment processing.
  - https://hotel-booking-app-inky-omega.vercel.app

Education

- **B.Voc – Hardware Technology & Networking** 2019 – 2022
  CGPA: 9.51 *Bhiwapur Mahavidyalaya, Nagpur*
- **Nxtwave - Industry Certification** April 2025
  Full Stack Developer Program
- **Udemy - Online Course** Sept 2026
  Python Data Structures & Algorithms (DSA)

Work Experience

- **Supervisor – Meshram Constructor** 2023 – Present
  Construction Project Management & Operations *Mouda, Nagpur*
  - Oversaw day-to-day on-site operations for residential and commercial projects while maintaining safety, quality, and delivery timelines.
  - Led and coordinated teams of laborers and subcontractors, resolving on-site issues and ensuring smooth project execution.
  - Managed procurement, vendor coordination, and inventory planning to reduce material wastage and improve operational efficiency.
  - Prepared progress reports, cost updates, and milestone summaries for stakeholders to support planning and decision-making.
  - Simultaneously pursued full-stack development training and built production-grade web applications, demonstrating strong self-learning and career-transition initiative.
